

# BareMetal-C Midterm Exam

- **Academic year / semester:** AY2025 / 2<sup>nd</sup> semester
- **Course:** 2182101 / Programming for Semiconductor Engineering
- **Date / time:** Friday 27 February 2026 / 8:30 – 11:30
- **Location:** To be announced
- **What's allowed:** 2-page double-sided A4-sized “cheat sheets” + 
- **What's NOT allowed:** Any electronic device.
- **Points distribution:** All problems carry the same number of points
- **Recommended preparation and exam-taking strategy:**
  1. **Prep:** understand all relevant lecture slides – they are your reference
  2. **Prep:** do homework problems yourself – the exam problems are *easier* than homework
  3. **Exam:** Count number of problems and allocate time for each problem
  4. **Exam:** If your answer *doesn't comfortably fit* in space provided, you are doing it wrong
